

## BRACKEN FARMER AND FOUR SONS ARE CHARGED WITH ARSON

Fritz Meyers and his Four Sons Arrested in Connection With Burning of Cooper Barn—Blood-Hounds Used.

Augusta, Ky., Jan. 12. — Fritz Meyers, 55 years old, farmer, lower end of Bracken county, and his four sons, Andy, 28, Omar, 21, Corliss, 20, and Ray, 18, were arrested Monday night on a joint charge of arson and assault and battery.

On Christmas night a stock and feed barn belonging to Wilford E. Cooper was destroyed by fire, together with three cows, two horses, twenty-five tons of hay and farming implements.

Captain Mullikin, Lexington, with his bloodhounds, picked up a trail, the dogs going directly to the home of Fritz Meyers, and then to the home of his married son, Andy.

The Meyers deny having anything to do with the burning of the barn but admit that they had a personal encounter with Al Traylor, a relative of Cooper. The Meyers and Cooper families are neighbors and had feeling was caused when Andy and Omar Meyers each brought suit against John Traylor, a close relative of Mr. Cooper, for \$10,000 alleging that Traylor slandered them when he accused them of stealing a hoe.

Mr. Meyers and his four sons were placed in the county jail in default of \$5,000 each, and will be given an examining trial Thursday. There is much feeling in the lower end of the county against the accused men, although there is no danger of mob violence now.

## ANOTHER GOOD-SIZED AUDIENCE AT REVIVAL

Pastor Mullen Preaches Very Strong Evangelistic Sermon—Sung Service Enjoyed.

The text for the sermon at the Christian church revival service last evening was taken from the second chapter of Hebrews "How shall we escape if we neglect so great a salvation." It was a large and attentive audience which greeted the speaker and he held their undivided attention during the entire course of the sermon. With clarity of thought and apt illustration he made it plain that God expects the individual to meet his conditions of salvation without equivocation and with whole hearted obedience. With such a large crowd of attentive hearers the preacher had an inspiration such as materially helps him to develop his sermon in both an attractive and practical manner.

The singing is improving at each service under the inspiring leadership of Bro. L. A. Britton and the chorus is becoming larger and better from evening to evening.

Many were present from other communities and this indicates a fine spirit of Christian fellowship and cooperation among Christian people in our city. We covet your presence at all these services. Remember the hour 7:15 every evening except Saturday.

The Woman's Auxiliary of the Church of the Nativity will meet with Mrs. Hardy, Thursday at 3 o'clock. Annual election of officers.

### NEW BURLEY BRINGS AS HIGH AS \$49.50 HUNDRED.

A number of hogheads of new burley brought higher than \$40 a hundred on the Louisville hoghead breaks yesterday, one gog to \$49.50, the best price of the season. Prices on this kind of tobacco were firm. Other grades showed little improvement.

Offerings totaled 358 hogheads, including 296 new burley, 43 old burley, 10 new dark and 9 old dark. Of these 297 were original inspections and 61 reviews.

Sales were: Tenth street warehouse, 64 hds, new burley, \$3.50 to \$47.50. Louisville Warehouse, 6 hds, old burley, \$14 to \$41.50; 16 new burley, \$3.70 to \$49.50; 12 old dark \$3 to \$10.25.

Turner Warehouse, 6 hds, old burley, \$4.25 to \$20; 34 new burley, \$3.25 to \$37.50. Kentucky and Peoples Warehouse, 18 hds, old burley, \$5 to \$23.50; 75 new burley, \$2 to \$44; 2 old dark, \$3.50 to \$3.75.

## DISASTROUS FIRE IN HEART OF CITY'S BUSINESS DISTRICT

Arn Brothers' Retail Store Gilted By Flames and M. A. Swift Drug Store Is Badly Damaged by Water and Smoke.

Fire of unknown origin, developing in the retail store of Arn Brothers in Market street, near Second, did considerable damage to the building occupied by this concern and practically ruined the almost new stock of goods carried by this progressive young concern. Water and smoke also greatly damaged the stock of the M. A. Swift Drug store, adjoining at the corner of Second and Market streets.

Young ladies on their way down Market street at about 4:45 o'clock this morning to take the Maysville C. & O. accommodation train for Cincinnati, discovered the dense smoke coming from the building and informed the clerk at the Central Hotel, who promptly sent in a fire alarm.

Upon the arrival of the fire department the interior of the Arn store was a mass of blaze and smoke was coming in great clouds from all of the windows of the building. The fire was a very stubborn one and required much skill to fight it properly. It was necessary for the firemen to use a large amount of water as the blaze was entirely too large for the use of chemicals. The use of water, as is always the case, caused much damage to the stock of both stores but without the liberal use of water the blaze would have spread to other adjoining buildings and a much more disastrous fire would have developed within a very short time.

Investigations of Fire Chief Newell lead him to believe that the fire was started behind or under a stairway in the Arn store and was therefore confined until it became a large blaze. The cause of the fire is unknown, as there was no fire within the building. It is thought, however, that rats or mice might have carried matches under the stairway, which was closely inclosed, and thus started the fire, as it might have been caused by faulty electric wiring.

Arn Brothers carry \$1,750 insurance on their stock of goods, which is damaged much beyond that figure while Mr. Swift carried only \$750 insurance on his stock, which figure will not begin to cover his loss. The building was fully covered by insurance. It is understood. Adjusters are expected to arrive within a short time so that little time will be lost. Arn Brothers will probably move their stock, or so much of it as is little damaged, to another temporary location and hope to be operating their business within a short time. The Swift Drug Store will also be re-opened to the public just as soon as possible. The building is owned the Misses Joeger and will be immediately repaired.

You will like the colors, the plaids and checks, the quality of these new gingham, also the prices, 19c, 25c, 35c, yard. Some are almost as pretty and fine as French gingham. Hunt's.

### C. & O. BEGINS WORK ON POPLAR SWITCH YARD.

A force of workmen for the C. & O. railroad began work this morning at cleaning up the company's Poplar street switch yard. This yard will be leveled and a slag roadway will be built along the switch for the use of wagons in unloading freight. Other extensive improvements to the railroad company's properties in the city will also be made immediately as was promised by the Superintendent to the City Councilmen.

### CHURCH OFFICERS TO ATTEND BANQUET.

All of the officers of the First Baptist church and the officers and teachers of the Sunday school as well as officers of all auxiliaries of the church will hold a get-together meeting at the church this evening. A banquet will be spread and the needs of the various departments of the church work will be discussed.

### SCHOOL HEAD'S BOND IS APPROVED.

The official bond of Geo. H. Turnipseed as Superintendent of Common schools of Mason county and Treasurer of the Mason County School Fund, with the U. S. Fidelity and Guaranty Company as surety was filed in County Court today and approved by County Judge H. P. Purnell.

### FARM BUREAU NOW TO PLAN FOR NEW MEMBERS.

The Mason County Farm Bureau will now devote its attention to a new membership campaign which will be started at once and it is expected that at least 75 per cent. of the farmers in Mason county will become members of the organization this year.

### LIQUOR STOLEN FROM TRUCK.

Robbers who held up an automobile truck on the Dixie Highway, between Crittenden and Walton, Ky., and took sixteen cases of whiskey were still at large Wednesday. E. C. Hall, of Erlanger, deputy sheriff of Kenton county, Ky., received a clue that caused him to believe the men fled to Williamstown, Grant county, Ky. W. K. Smith, driver of the truck had a consignment of whiskey which he obtained in Frankfort and which was destined for Newport. Two guards accompanied him on the trip. When the truck was near Walton, four men, armed with revolvers, stepped out of an automobile and held them up. In transferring the sixteen cases of whiskey from the truck to the automobile the robbers dropped one case and eleven bottles were broken. Deputy Sheriff Hall went to the Boone county line to intercept the robbers, but learned that they had gone in a different direction.

### IMPORTANT BUSINESS BEFORE CIRCUIT COURT.

Circuit Court will be re-opened tomorrow by Judge C. D. Newell and very important business is to come before the court. Disposition of the motions for new trials in the Edkins murder case and the Stewart and Reed will cases will probably be the most important business. Court will be adjourned on Saturday.

### CINCINNATI MARKETS.

### MISSOURI LOSSES HEAVY.

St. Joseph, Mo., Jan. 12. — North-west Missouri tobacco growers disposed of the 1920 crop at a sale at Weston, Mo., Tuesday, more than 250,000 pounds bringing an average of less than 14 cents a pound. The growers said it cost them 20 cents to 25 cents a pound to produce the crop.

Mr. William Hampton is in a serious condition at his home on Wood street.

## COMPLETION OF PROGRAM WOULD GIVE U. S. GREATEST NAVY

Secretary Daniels Lays Plan For Increasing Naval Strength Before Congress Today.

Washington, January 12. — Secretary Daniels today laid before the House Naval Affairs committee what he described as approximately complete data on the relative sea power of the three principal naval powers requested by the committee in connection with its consideration of the question of international disarmament.

Tables submitted by the Secretary show that while the present effective fighting strength of the British navy includes 538 ships of 1,588,442 tons, as compared with 330 ships of 779,193 tons for the American navy, completion of the authorized building program of this country in 1925 will give it a tonnage superiority in the ratio of 1.35 to 1, with approximately an equal number of ships.

While the present strength of the American navy was shown to be more than double that of Japan, should the latter country complete its projected program for 1927, in addition to construction already authorized, and this country terminate construction with its present program, its naval superiority over Japan in that year, it was shown, would be reduced to a ratio of 1.4 to 1.

### CRANKS TRUCK IN GEAR; DIES.

Thomas Jefferson Stone, 39 years old, a farmer, was instantly killed Tuesday afternoon shortly after 4 o'clock in front of his home, 12 miles from Lexington on the Richmond road when he volunteered to crank a stalled truck and the car suddenly started, knocking him over and crushing him. The truck, owned by Pres Eads, a farmer, and driven by his son, Willie Eads, 14 years old, stopped for some reason near the top of a hill. With Eads were Gray McConnell and Earl Goodpastor, playmates. The boys pushed the car down the hill and Stone, seeing that the trio were in trouble, offered to start the machine. The driver neglected to throw the car out of gear and when Stone cranked the engine it darted forward.

## FALSE REPORT IN REGARD TO SHOOTING EXCITES COUNTRY

Bracken County Man Attempts Suicide—Report That He Confessed Killing Jesse Glenn Proves False

Considerable excitement was created in Maysville this morning when reports were brought here by way of Germantown that a man had attempted to take his own life in the western section of Bracken county last night and had made confession that it was he and not Marksberry, who had killed Jesse Glenn. The report as circulated here was rather elaborate in that the attempted suicide was reported to have confessed as to where Glenn's head and arms might be found.

Editor Thompson, of the Augusta Chronicle, who is also Deputy Sheriff of Bracken county, over the telephone this afternoon informed the Public Ledger that the report so far as any confession as to the Glenn murder was absolutely false.

Jesse Smith, a young man 28 years of age, married, attempted to take his life at his home some distance below Augusta last night by shooting himself in the left breast near the heart with a rifle. The bullet was removed under the left arm and Smith is not thought to be in a dangerous condition. Young Smith has not been mentally sound for some time and had the idea that officers were charging him with several crimes committed in Bracken county for some time.

## TILT BETWEEN FLIERS WHO ARE AGAIN IN CIVILIZATION

Rescued Fliers Will Leave Canada This Afternoon On Their Triumphant Return to the U. S.

Mattie, Ont., Jan. 12. —The rescued U. S. Navy balloonists, who reached civilization again yesterday, after days of hardship and struggle that seemed endless to them are more interested in food and sleep than all else. Now they are reveling in the delights of the table, and are loath to turn aside from the juicy steaks to discuss their experiences in coldest Canada.

Something of the severe nervous strain brought about by their desperate conflict with the wilderness was revealed in the clash yesterday between Lieutenants Farrell and Hinton, which culminated in a blow from Farrell that sent his fellow flier sprawling over a table. The altercation arose over a letter, said to have been written by Hinton to his wife from Moose Factory. In the letter, published by a New York newspaper, Hinton is alleged to have written that Farrell, exhausted from the hardships of wandering, pleaded with his two companions to kill him and eat his body, to enable them to get back to civilization. Farrell charged his companion with "double crossing" him, saying all had agreed that their letters should not be published. Hinton's refusal to retract was the immediate cause for Farrell's blow. Newspaper correspondents' laffered and separated them.

## OUR POLICY

To support such measures as are unquestionably for the good of Mason County as an entire community, rather than such propositions as are in favor of the individual interest, or of one section as against another. And likewise to earnestly and consistently oppose all things that are not for the good of the County as a whole.

## A CENTURY'S LABOR AT STAKE.

A great principle now established by the British and American peoples concerns the ability of two powers speaking a common language to live for a century at peace as Great Britain and the United States have lived, despite the natural divergences in interests consequent upon competitive foreign trade. Establishing in history of this example is an asset stored in the treasury of civilization, urging upon mankind the belief that maintenance of world peace is within the scope of practical politics.

This achievement of a century is at stake in threatened naval rivalry between the two great English speaking nations. They have not lived in harmony by good fortune, but because of the laborious work of enlightened statesmen. The efforts of the past will have gone for naught if now the two nations are to enter upon a gun building competition, leading, as it will, to world mischief.

Canada's interest in Anglo-American harmony is profound. Nothing would so quickly and radically disturb this dominion as friction or armed suspicion between Great Britain and the United States. Given that development, the arming of the Canadian border would come at once within the concern of official circles. The possibilities are appalling.

The whole upward and onward movement of mankind depends upon the continued ability of the British and American peoples to find self-respecting satisfaction for their aspirations in healthy rivalry in the arts of peace.—Montreal Star.

## WHILE AWAITING DISSOLUTION.

We look for no great excitement over the assertion of the United States geological survey that at the present rate of erosion the United States will be washed into the oceans in about one million years. We do not expect to see the citizenry taking to the high ground for some years to come. But there is a point in the survey's findings which really should give pause for thought.

An average of ninety-five tons of soil from each square mile of territory in the country is carried out to sea by the rivers each year. That is a rather startling elaboration.

I farming areas with natural surface drainage this means a very appreciable removal of true soil. In some sections it is already reducing fertility to a marked extent. It may even produce a condition where the best of fertilizers cannot restore original productivity. On the whole it is a definite economic loss to the nation, which can be considered in relation to this year and this decade rather than in relation to our complete dissolution 1,000,000 years hence.

There is one way in which it can be reduced to a minimum. That is by reforestation. Thus we may guard against worse famines than China's.—Chicago Tribune.

## A NEW MORAL OFFENSE.

It was supposed that the moral defects of the American public had been completely enumerated, but it has remained for a Methodist Bishop to discover and anathematize a new one. Speaking at Chicago in condemnation of "the moral laxity shown in the present-day styles of women's dress and in social entertainment and public demeanor," he said: "Men who care no more about religion and morals than a dog are making themselves millionaires out of the recreations of the people."

Here is the suggestion of a novel and interesting qualification for business. Certificates of moral character are not required of dealers who sell fish or shoes, but men who make money by amusing the public out inferentially be church-goers. On the theory that "who drives fat oxen should himself be fat," they who provide popular "moral entertainment" such as movies, problem plays and fleshy revues should also be moral.

Perhaps when the perfect puritanization of the country is accomplished such a requirement will be written into the blue laws. Meantime it is some satisfaction to know that if the innocent public is being led astray, it is by the nefarious temptations of godless multi-millionaire showmen and not as the result of any original sin of its own.—New York World.

## ENFORCING THE SCHOOL LAW.

The new Kentucky Compulsory School Attendance Law is a good measure if it is properly enforced and we are glad to see that the officials in Mason county have let the public know that they intend to enforce the law.

Already one man has been fined in a Mason county court for having failed to send his child to school and the officials have let it be known that they intend to see that other parents who fail to send their children of school age to the nearby school are to be fined.

Mason county, at great expense, has built up one of the best school systems in the state of Kentucky. The parents of the county should, and the most of them do, appreciate the schools.

In this day the illiterate man or woman is practically out of the running and if the parents of the children do not take enough interest in their welfare to see that they are properly educated the state and county expects to force them.

## RUSSIAN BELL YCAVES IN.

Word comes from Russia that steps are being taken toward the demobilization of the soviet army, preparatory to concentration upon the economic ills of the country. That is progress in the right direction. The moment the Russian government succeeds in establishing itself on a sound economic basis, restrictions imposed by other nations on trade with Russia will be removed, to the mutual benefit of all concerned.

## BIG FEATURE AT BE SEEN HERE ON WEDNESDAY NIGHT

Management of the Pastime Theater  
Offers Big Feature in "Ship-  
Wrecked Among Cannibals"  
Of New Guinea.

A motion picture that had no scenario! Such is "Shipwrecked Among Cannibals," to be seen Wednesday at the Pastime theater.

Not one of the cast had a minute's direction. Mr. Edward Laemmle and Mr. William Alder of the Universal Film Company, who were shipwrecked on the coast of Dutch New Guinea, took the scenes as they went along. The results are far more thrilling than if they had used a manufactured plot.

What scenario or director could write a story as strange as the daily habits of these weird people, whose women disfigure themselves for the sake of beauty? Of children, who at nine and ten years of age, appear as forty?

In the midst of a tropical storm that almost wrecked their apparatus these two men stood bravely by their camera and while lightning struck near them and tall palms crashed in their feet, cranked out hundred of feet of film, the like of which never had been equalled.

One night they hid themselves in the nearby bushes, while the Kia Kia Head Hunters danced upon the moonlit sands in a religious ceremony. The lens caught every movement. It would

have meant death by torture, had a rustling leaf or a crisp branch betrayed the two white men, but Fate was on their side and they were able to take and bring back to America the strangest picture of adventure ever shown. "Shipwrecked Among Cannibals" is not a dry educational picture. It is the actual cinematic record of a true and thrilling adventure.

Texas Lady Suffered With Polling  
and Aching Pains in Her Back,  
Which Cardui Relieved.

Houston, Texas.—Mrs. C. D. Cook, of 1312 Whitty Street, this city, recently said: "About four months after my marriage, I . . . began suffering much pain, and knew that my condition was unusual, but couldn't just decide what was wrong. I had to go to bed . . .

"All across my back and hips were pains, pulling and aching until I could hardly sit up. I stayed in bed a few days. My husband had heard of Cardui . . . so I told him he might get it. "After I had taken Cardui a few days, I was up. I took five bottles and haven't been in bed since for this trouble, for if I have the least symptoms of this trouble I get Cardui and take it in time.

"I have a number of friends who have used Cardui, and they recommend it very highly."

## New York Letter

By Lucy Joanne Price

New York. — Witch hunting is becoming a serious occupation in New York; and the evil eye with its powers of bewitchment is gaining a place not only in the whisperings of the tenement corners, but in the records of the courts. Following the neighborhood persecution of a frightened Russian woman, and the plea of one, woman that she stole jewelry because of the hypnotic eye of a man, comes the case of seventeen-year-old Florence Dazzo. Probation officer Katherine McCauley, as practical a woman as ever wore a badge, declared the other day in the Jefferson Market police court, that it was the Dazzo girl's power of "bewitchery" which had led her girl friends into trouble. Magistrate Levine too took charge seriously enough to forbid Florence looking at the girl in court with her at any time during the hearing. Miss McCauley said her eye and their evil power had been exercised malevolently on another girl in Waverly home while she was there waiting her hearing. And because of this witching of her eyes, Florence Dazzo was then and there sentenced to Bedford Reformatory.

Gotham Society — with a very big capital S — is considerably exercised over the proper amount of obsequiousness due Lord Carlisle, its at present most distinguished guest. Because he is a grandson of Queen Victoria and brother of the Queen of Spain, his hosts and fellow guests started in by giving him regular court curtsies and presenting women to him as to royalty. An dall the rest of what they deemed his due. Then along came some carrying crinoline and laughed them to scorn. "He's not a Prince of the Blood," he told them. "He must be getting a lot of fine laughs out of you. Etiquette doesn't let you treat him any different from any other gentleman." The most embarrassed person among the mis-steps is one who is credited with ambitions to be made Ambassador to the Court of St. James, and now he's given it away that he doesn't even know court etiquette!

Max Goldberg, 13-year-old messenger boy, is back from Europe. He made the trip without any special preparation or thought and his impressions consist largely of the number of potatoes which must be peeled aboard ship. Max wasn't a stowaway. He went on board the Kroonland one day of its sailing to deliver a box of flowers. Then he paused for a brief tour of inspection, and lo and behold! He was on the raging Atlantic gale at full speed. They sent him a mother and sent Max to wherever it is the potatoes are peeled on a liner, and brought him home on the return trip. "But they let me go ashore at three places," he says with pushed-out chest, "and I had a lovely time."

As a New Year's souvenir and in celebration of the 150th performance of "Tickle Me" at the Selwyn theater, Arthur Hammerstein gave away several hundred "hooch testers" — the things used by chemists to measure the alcoholic proof of liquor. Mr. Hammerstein explains that his motive is not to encourage the consumption of liquor.

### THE PROPER COURSE

Information of Priceless Value to Every Maysville Citizen.

How to act in an emergency is knowledge of inestimable worth, and this is particularly true of the diseases and ills of the human body. If you suffer with kidney weakness, urinary disorders, or any form of kidney trouble, the advice contained in the following statement should add a valuable asset to your store of knowledge. What could be more convincing proof of the efficiency of Doan's Kidney Pills than the statement of a Maysville citizen who used them and who publicly tells of the benefit derived?

Ben P. Fleming, constable of Mason Co., 217 E. Lee St., Maysville, says: "I have used Doan's Kidney Pills off and on for several years, getting them at Wood & Son's Drug Store, and they have been of great benefit. At times my kidneys have been out of order and I have suffered from a dull, constant ache through the small of my back. The kidney secretions have been irregular in passage. A box or so of Doan's Kidney Pills has never failed to relieve me of the complaint in a short time."

Gilbert K. Chesterton, is the latest announced English lecturer to plan an invasion of New York for the sake of giving lectures to us. But he has made his way for a welcome by promising on his word of honor that everything we could possibly say about the British and the Europeans who have done that to us.

Laurette Taylor is coming back in "Peg o' My Heart," the comedy which established her in the affections of the theater public. The play is expected to open here in the early spring. It will be an exceptional revival because of the short time since it was first produced. Usually managers wait until a new crop of audiences has grown to theater age before bringing back an echo of the past.

One of the most snobbish gatherings of the year is in progress at the Waldorf—the annual cat show. The most exclusive group of human beings in the country can't carry anything through with the complete sense of superiority and disdain of their fellow creatures that one finds in these several hundred Persian, Angora, Manx, Siamese, etc. felines who have come together for the sole purpose of showing themselves off. And when you learn the prices of those that are for sale, you can understand their hauteur. Five thousand dollars—or the price of a cable coat—just for a cat!

It is difficult to think of an address quickly, particularly if you are asked by some one in a hurry. But it was unfortunate for William Hart that his mind hit first on the exact street and number which it did when he was in court the other day charged with hogging. "Where do you live?" asked the judge. "No. 9, Madison street," Hart replied. "That's nice," commented the magistrate. "That's my home."

### UNCLE TED'S BED-TIME STORIES.

#### Republican Vote To Help the Farmer.

"I wonder when you put on your clothes, eat wheat bread, brown bread, rye bread and the hundred and one products from the farms if you realize what conditions the farmers have been and are working under today?" said Uncle Ted while Jack and Ruth were walking with him around their grandfather's farm.

"I don't think about it a bit," spoke up Jack.

"That's just it, Jack," replied his Uncle. "The people living in the cities little realize just how they are able to eat each day and what it means to get the products of the farm to them. The farmer is up against a serious matter but thanks to a Republican Congress they may now be able to pull through their troubles. The price the farmer has been getting for the year's products has fallen to the bottom while the cost to him of materials and equipment he has to buy has gone down but very little. This condition reached the point where the farmers found they had to get help or face financial ruin, which would mean a mighty hard thing for everybody. The prices of farm products were high this year up until the time when the farmer had something to sell, when 'bang,' they dropped."

"What will happen?" asked Ruth. "Simply this, Ruth, would happen, if help isn't given the farmer—the country will suffer terribly, because if the farmer can't sell products for at least what it cost him to raise them, he will go out of business, which will mean, no food."

"Well, hasn't anything been done to help them?" asked Jack.

"Yes, Jack, a Republican Congress working against a President who refused to sign the bill to help the farmers, has succeeded in passing it over his vet. This bill, a resolution, as it is called, brings back into existence a body called the War Finance Corporation which worked during the war."

"The resolution, which was introduced in the Senate by Senator A. J. Gronna, Chairman of the Senate Agriculture Committee, was passed by the Senate and the House some time ago but President Wilson returned it to the Senate with a message saying he would not sign it. To make it a law it was necessary for the Senate and House to re-pass it by a two-thirds

vote. The very day it was returned by Mr. Wilson, and almost before the clerk of the Senate had finished reading his message, the Senate voted again and passed it over Mr. Wilson's head by a vote of 53 to 5. The next day the House voted on it again and they passed it over Mr. Wilson's veto by a vote of 250 to 66. Work has already started on reviving the corporation and with a little more than a month they will begin making loans. There is already a balance to the credit of the corporation in the U. S. Treasury of \$375,000,000 but this will probably not be used as it would mean a lot of what is known as 'red tape.' The corporation will probably make it loans by an issue of bonds instead. Through this body the farmers may be able to sell their surplus products to European countries and keep the products moving. Really, what the War Finance Corporation does is to aid the farmer who wants to send his products to Europe, to be sold for as soon as Europe can get money."

"I don't understand that, Uncle Ted," spoke up Jack.

"Well, Jack, I'll give you an example of what I mean. The banks in the little country of Czechoslovakia and the industries there making clothes wanted to buy from us about 300,000 bales of cotton. That little country is strong from a business standpoint and is a leader in Europe when it comes to the reconstruction necessary since the war. She saw a chance to sell cotton goods made in her factories, if she could get the cotton. She could pay for part of it in cash and of course she wanted credit on the rest until she could make the goods and sell them. This was a case where the War Finance Corporation could probably do something just as Congress intended it should be done. It was a chance for the United States to help Czechoslovakia, with out a cent from your father, Johnny's father or myself or any of the other millions of citizens, in the form of charity, and at the same time help the United States."

"What happened?" was Ruth's question.

"When the terms of the agreement were about agreed upon, and right in the heart of the deal, Secretary of the Treasury Houston, ordered the War Finance Corporation to stop work. And he is the same man who advised President Wilson to turn down the resolution to start this body working

again. "But it didn't do him any good, did it?" was Jack's comment.

"No it didn't Jack. Immediately after the President's message on the resolution was read in the Senate a Democrat, Senator Underwood, got up and said: 'During the war the War Finance Corporation functioned properly and successfully in aid of the business of the country as well as of the Government itself and there is no reason, now, that I can see, why it should not be able to render as good service to our people in peace as it did in war. If the measure is properly and carefully carried out I can see no danger to the country or to the treasury.'"

"Of course, children, it may be too late for the War Finance Corporation or anybody else to help the farmers

on the sale of the crops they harvested last fall. The Republican Congress has acted as promptly as it could, and with the opposition of the President, so if nothing can be done to help the situation, we shall at least know that Congress did everything possible to relieve the situation. Then, too, much will depend upon the course that will be pursued by members of the Corporation appointed by President Wilson."

A Memphis man has invented a new cotton picker with a capacity of 700 pounds daily. The picker, at the end of flexible tube, is placed against the boll and the cotton is drawn from the bolls by means of two cylindrical horseshoe brushes which revolve. A suction arrangement draws the cotton to a receptacle in the rear.

## THE MUSICAL ODDITY "PECK'S BAD BOY."

The old comedy favorite "Peck's Bad Boy," which the grown-ups of today liked so well when they were children, and which the children of today like even more for the reason that the comedy is not antiquated but has been brought up to date by the well known writer of many song successes, Irving Berlin, who has interpolated the modern songs of today and the latest devices in the way of laugh-provoking incidents. All that is old about "Peck's Bad Boy" of the present season is the ever popular story of the typical American boy whose pranks upon his father and mother and upon Shultz, the old German grocer, are the talk of the neighborhood in which he lives. The title role is in the eff. ant hands of Junior De Rita the artist who has signed a long term contract with the producers who has to make make many concessions to get his signature to a contract. The engagement in this city is for one day, next Tuesday, at the Washington theater.

## FIELDS WILL ASK PROSECUTION OF MANUFACTURERS

Ninth District Congressman Says Big Tobacco Manufacturers Have Violated Sherman Law.

Washington, Jan. 12. — Prosecution of the large manufacturers of tobacco for alleged violation of the Sherman anti-trust law in connection with the purchase of tobacco on markets in Kentucky and other states will be urged upon the Department of Justice by Representative W. J. Fields, of the Ninth Kentucky district.

Mr. Fields said Monday night that he would confer immediately with the department officials regarding data submitted or to be submitted to the Department of Justice by the Federal Trade Commission. He said also that he would confer with officials of the Federal Trade Commission in regard to legislation to further govern the tobacco markets.

The action of Mr. Fields follows a report made recently by the Federal Trade Commission in response to a resolution introduced in the House by the Kentuckian calling for an investigation of the tobacco markets, especially during the last months of 1919 and the early months of 1920. In its report the commission found that methods of purchasing adopted by the large tobacco manufacturers probably were in violation of the Sherman act.

## WANT WOMEN PLACED ON HEALTH BOARDS.

Louisville, Ky., Jan. 12. — Appointment of a woman on County Health Boards is urged upon Fiscal Courts by the State Board of Health, according to Dr. J. N. McCormick, Secretary of the bureau. Appointment of women to the board, Dr. McCormick said, is due them because of their untiring efforts in health work, especially in the last decade, and also in view of their now having equal suffrage rights.

At present there are four members on each County Health Board, three physicians being appointed by the State Board, while the fourth generally is the County Judge or another county official. The Fiscal Court, under the law, would appoint the fifth member, who, the State Health organization hopes, will be a woman. Dr. McCormick explained that the woman as well as the men members of each board should be well known in the county and have the confidence of the people in their respective sections.

## INAUGURAL BALL GOWNS DOOMED TO DARKNESS.

Washington, Jan. 12. — Many expensive and magnificent gowns ordered weeks ago by women for the inaugural ball soon may be dumped upon the bargain counters of Washington.

President-elect Harding's wish to have the festivities eliminated sorely disappointed the women and gave fashionable gown makers a jolt. Whether prospective buyers would take up the garments, with the ball canceled, was the question which gave dealers most concern.

Florists, it was said, also expected the loss of hundreds of orders, actual and prospective.

## HAD MAN SENT TO STATE ASYLUM.

The Fleming Gazette says: "Robert Browning, the Robertson county young man who was in jail here for shooting up a church near Fairview and for attacking Jailer Fizer in an effort to escape, was tried for lunacy in Judge Fulton's court Wednesday and was committed to the asylum. Attendants from Lexington came here Thursday and took him to the Eastern Kentucky Hospital. Browning may be playing off to get out of a bad situation, but in trying to be a 'bad man from bitter creek' he must have a weak strain in his make-up. Late in jail he appeared to be unbalanced on religion, claiming that the Lord was personally directing him. Anyway, he ought to come out of the asylum a better man than he was when he was jailed here."
